LET US REASON TOUETHER. -- Permit an humble individual to lay before you a few thoughts that are burned into his heart of hearts by lie vsry truth. The first great thought is this, the institutiou known as the "Federal Government," established by the people of the United States of America, is a failure. This is a fact which connot be gainsaid. It has ever been in the power of the Federal liovernment to enforce ALL its own laws within its own territory; it has, therefore, been measurably a failure from the beginning, but its first convincing evidence of weakings was in allowing one branch of its organization to pass an anconstitutional law (the Missouri Compromise) Its next evidence of theorepitude was its inability to enferce a constitutional law, (the Fugitive Slave Law), the whole fabric being

shaken to its foundation by the cally single attempt at enforcement, made by its chick officer (President Pierce) need not enlargo in this direction. The Federal Government' is a failure.
What thes? The States, of course, revert
to their original positiou, each sovereign
within itself. There can be no other just conclusion. This, thrn, being our position

THE FRUITS OF DISUNION. - Everywhere throughout this broad land are to be seen the fruits of political dissensions. Not withstanding the abundant harvests of the greater portion of the States, and the gen- ago. ral prosperity for several years past, our percantile and manufacturing interests are languishing, and thousands of working men in the great emporiums of trade are without City alone, it is estimated that there are no less than 15,000 persons thrown out of work. and who are suffering to a greater or lesser extent. In Philadelphia several of the largthe manufacturing districts of New England, by the waves. the working classes are suffering, and must continue to suffer so long as the present condition of affairs obtains. But it is not fering of the laboring classes in the cities of the Cotton States, and depict in feeling erms the prospect of starvation. By the nade to suffer. It is not the politician the tell and reap, and who reap the whir wind mostly. In our own city the effects of the political troubles may be seen every where. The city is duller in its busin working force, so that we have an unusually large number of idlers. If the revoluti is to continue long, how much greater will b the degree of privation and suffering of the vorking classes, it is easy to imagine, be most difficult to avert.

There will be found in our paper ome family medicines that we desire to ca especial attention to. Among them is Dr Weaver's Salt Rheum Sirup and Cerate. We speak more directly of the Cerate, which is an ointment every family should keep at

We know it has no equal for the cure of rosted feet, chilblains, chapped or cracked nands or lips, and for sore nipples it is the only one thing required. If any person is afflicted with any disease where a good salve is wauted, we advise them to give Dr. Weaver's Cerale just one Irial, and they will be convinced of its merils.

Dr. Weaver's Sirup, with the Cerate, is ure cure for all humors, sores and disease that arise from impurity of the blood. Another valuable preparation is the o slaudard remedy and people's favorite, Perry Davis' Pain Killer. Our readers only want to know that this remedy is pure and enuine, and sold by all our city druggists Dr. S. O.
